

Appendix G

Monitoring Activities

Monitoring Plan

In December 2011, the County was re-designated from a Phase I MS4 to a Phase II MS4. In April 2012, the Census Bureau released updated Urbanized Areas based on the 2010 Census. As a result of the 2010 Census the Daphne-Fairhope Urban Cluster was changed to the Daphne-Fairhope Urbanized Area and its boundaries expanded along the I-10 corridor.

Since the MS4 Area for the County has changed significantly, the County is still evaluating its MS4 Area with respect to the existing known problems as described in Section 2 of the SWMP Plan to determine if any type of monitoring should be performed within the County's MS4 Area. Results of this evaluation will be summarized in the 2015 MS4 Annual Report.
